

NATION AND DISCRIMINATION

A Joint German-Israeli Seminar in Berlin

What?

Following the recent escalation of the Israeli-Palestinian conflict since October 7, 2023, there are major tensions between Jews and Arabs, Israelis and Palestinians. Meanwhile, the way the conflict is dealt with in Germany is often characterized by polarization and a lack of first-hand knowledge and understanding.

Take part in a one-week seminar with Germans, Jewish Israelis, and Palestinian/Arab Israelis. Together we will explore our personal and national identities, how they are connected, and the ways discrimination is shown in nowadays Israel and Germany. To this end, we will work with a multitude of dialogue methods, movement, artistic workshops, lectures, excursions, and more.
